

Emotions Charades

Instructions:

1. Pass out "Emoji Cards".
2. Have a child select a card. Then, have them face the other children and act out the emotion using facial and body expressions. Have the other children try to guess the emotion.
3. The child who correctly guesses the emotion first will act out the next emotion.
4. Continue playing until all of the cards have been acted out or you are out of time.
5. After the game, discuss emotions. Possible questions are:
 - What expressions helped you guess what the other person was feeling?
 - What made guessing easier? Or harder?

Extra Opportunities for Fun

1. Have children make additional cards by drawing pictures of the emotions or writing out words.
2. Use pictures from magazines or video clips.
3. Use emotion scenarios for children to act out - "Hitting a homerun" or "First day of school"
