</tr>
</thead>
</table>

## Age

<table>
<thead>
<tr>
<th>Age</th>
<th>Early Elementary</th>
</tr>
</thead>
</table>

## Objective

<table>
<thead>
<tr>
<th>Objective</th>
<th>Students will integrate math and the important life skill of sharing by categorizing and graphing different ways to share and take turns.</th>
</tr>
</thead>
</table>

## Materials Needed

| Materials Needed | • Skills poster or skill steps written on board for “Sharing Something”  
• Book Share and Take Turns by Cheri J. Meiners, M.Ed. (available from boystownpress.org)  
• Large chart paper or space on a wall or board to create the graph. |
|-----------------|----------------------------------------------------------------------------------------------------------------------------------|

## Planned Teaching

| Planned Teaching | Sit or stand in front of the students with the book *Share and Take Turns*. Pretend to enjoy the book, trying to elicit students’ protests to see the book. Discuss with students their desire to get to read the book and how it felt when you didn’t share. Say that we have all had a time when we didn’t share with others. Ask the students how that probably made other people feel. Tell them that today they will learn about sharing.  
Tell the students the steps of “Sharing something.” These steps are modified to be kid-friendly.  
• Let the other person use the item first.  
• Ask if you can use it later.  
• After you use it, let the other person have it back. |
|-----------------|----------------------------------------------------------------------------------------------------------------------------------|

## Practice

| Practice | • Tell students you will now share the book with them by reading it to everyone. Read *Share and Take Turns* by Cheri J. Meiners, M.Ed. to the students.  
• Ask students why it’s a good idea to share. Discuss with them that sometimes others will say, ‘no’. Ask what the book says you can do. (Do something else instead.)  
• Tell them that the book talked about many different ways to share: divide things, use things together, trade things, and take turns and wait. (We did not include help someone. As you say each category, place the labeled x-axis pictures along the bottom of the graph.) |

Tell students that you all will look at pictures of children sharing and that you will take turns categorizing what kind of sharing the picture shows (i.e. divide things, use things together, trade things, and take turns and wait.) Underneath each illustration, we provided our suggestion of where the picture goes. It is merely a suggestion and is for the teacher only.

As children take turns categorizing the kinds of sharing, have children take turns attaching the picture above the category.

After the chart is completed, discuss the graph. Discuss which type of sharing has the most examples. Which has the least? Are there any that have the same amount?

Ask students for examples of how they can share in their daily life at home, in the classroom, or on the playground and anywhere else they might go.

Throughout the days and weeks to come, prompt sharing right before the students do an activity in which they will need to share. As you “catch students being good,” praise them for sharing. Pay special positive attention to encourage those students who most struggle with sharing.

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Informally assess students’ participation during the math activity. Encourage students to share by praising their ability to wait and take turns during the whole-class activity. Informally assess students’ ability to share throughout the days and weeks to come in their daily classroom activities.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Options</td>
<td>Encourage students to practice sharing inside and outside of the classroom. Ask students to be prepared to report back to the class how they practiced sharing. Incorporate poetry about sharing by using poems from <em>Caring, Sharing, and Getting Along: 50 Perfect Poems for Promoting Good Behavior in Your Classroom</em> by Betsy Franco. Read and incorporate <em>Teamwork Isn’t My Thing, and I Don’t Like to Share! By Julia Cook</em>. A teacher’s activity guide is also available. All mentioned books are available at <a href="http://www.boystownpress.org">www.boystownpress.org</a>.</td>
</tr>
</tbody>

The Boys Town Education Model

Empowering Learning Communities | Transforming Social Climates

ARE YOU IMPLEMENTING THE BOYS TOWN EDUCATION MODEL IN YOUR CLASSROOM OR SCHOOL?

If so, be sure to take advantage of all the resources we have to help you!

- FREE on-demand webinars you can watch anytime
- Low-cost on-demand training to help you practice the teaching interactions, increase your fluency and confidence and learn more about helping children learn skills and develop their social and emotional competencies.
- Free Social Skills Lesson Plans
- Check out the Boys Town Press for additional resources and books that are designed to support behavior change and skill teaching.

ARE YOU INTERESTED IN IMPLEMENTING THE BOYS TOWN EDUCATION MODEL IN YOUR CLASSROOM OR SCHOOL?

We have many options to meet your needs! The first step is to just have a conversation to talk about your goals and needs. We help you develop a plan that can range from attending an on-campus national workshop to having Boys Town Trainers come to you to train staff, trainers, and consultants. Just like behavior interventions and supports it is not one size fits all.

If you want to learn more about our Model and tools, be sure to visit our website. We have webinars, articles and resources with information on how our model can help you build social and emotional competencies in all students to improve school culture and build positive relationships.

Follow us on Facebook and Twitter to be the first to know when we have new resources available!
